

REMARKS

I. Status of the Application

This paper is being filed in response to the Notice of Allowance that was mailed on August 10, 2009. Applicants gratefully acknowledge the allowance of claims 1-5 and 9 as listed hereinabove. This paper amends the claims by addition of one new claim designated as claim 12.

II. Amendments to the Claims

The claims have been amended by addition of an additional compound claim 12. Support for this amendment is in the specification as originally filed. Particularly, new claim 12 is supported in the specification in the exemplified compound section. Claim 12 recites additional species that fall within the scope of claim 1, the genus previously examined and now allowed. As such, entry of this new claim does not place an undue burden on the Examiner as the scope of this subject matter has already been examined. Applicants respectfully request entry of this amendment and allowance of claim 12.

III. Conclusion

Upon entry of the present amendment, the Applicants submit that this application remains in condition for allowance. If any fee is required for the filing of this amendment, please charge all such required fees to Deposit Account No. 16-1445. If the Examiner believes that a telephone conference would expedite the prosecution of this application, please telephone the undersigned at 860-715-6645.

Respectfully submitted,

Date: November 6, 2009
